

PLEASE READ CAREFULLY

Welcome to Wilmington Eye! Thank you for choosing us to serve your child's eye care needs. We would like to give you an idea of what to expect during your child's eye visit.

Advanced care:

We provide our patients with the very best medical and surgical eye care in the region. A child's comprehensive eye examination may take **up to 2.5 hours** to complete. When your child returns for a non-dilated exam, it may take **up to 1.5 hours**. Children's cooperation during an exam may vary, which makes scheduling in a pediatric practice challenging, at times. Please be assured that we are doing our best to see all our patients in a timely manner.

Refraction:

To determine how your child's eyes focus, the doctor will typically perform a refraction on all new patients and repeat it on a yearly basis thereafter. Most private medical insurance companies will not cover the refraction fee, although it is considered an essential part of the comprehensive eye exam. Our fee for the refraction is \$50.00 and is collected in addition to any co-payments, deductibles, or coinsurance that you may owe for the medical portion of your eye exam.

Dilation:

To complete a full exam (applies to all new patients and yearly exams for established patients), we will be placing dilating drops into your child's eyes. This allows the doctor to examine the inside of the eyes and helps to determine how well your child can see. This is generally done once a year. Our technicians are experienced in administering drops, so they will work with you and your child to make this process as smooth as possible.

REFRACTION FEE POLICY

What is refraction?

Refraction is the process of determining the eye's refractive error, or need for corrective glasses and/or contact lens.

Why is it sometimes necessary?

Refraction is sometimes necessary depending on the patient's diagnosis and/or complaints presented that day. For example, if a patient is experiencing blurred vision or a decrease in visual acuity on the eye chart, refraction would be needed to see if this is due to a need for glasses or due to a medical problem. Refraction is also necessary to prove to insurance the need for cataract surgery. We must prove that your vision cannot simply be improved with a glasses prescription.

Does my insurance cover it?

As you can see, refraction is an essential part of an eye exam, however, Medicare and most insurance providers **DO NOT** cover it.

Will I be notified in advance if I need it?

Yes, ONLY a technician or physician is qualified to tell you if this procedure is necessary. They will let you know if this procedure is necessary before it is done. You will be given the option to accept or decline this service.

Important: If you decline, we may not be able to determine the cause for your decrease in vision.

How much does the refraction cost?

Our office policy is to charge \$50.00 for this procedure in addition to the office visit co-pay and/or deductible. This is due at the time services are rendered. We will bill your insurance according to the individual contracted fee schedules. If your insurance pays the fee, we will gladly refund you the \$50.00 amount once we receive notice from your insurance.

Note: This fee is due and payable whether or not you receive a written glasses prescription. Sometimes the change is not significant enough to warrant the cost of purchasing new glasses and a new prescription will not be given. The fee covers the technician and/or physician time that is needed to administer the refraction.

ACKNOWLEDGMENT:

I have read the above information and understand the refraction is a non-covered service. I accept full financial responsibility for the cost of this service. The co-pay and deductible are separate from and not included in the refraction fee.

Patient Payment Policy

The physicians and staff at Wilmington Eye are committed to providing the highest quality of care to our patients. In order to do this, we must maintain excellence in the clinic, as well as in our business office and other areas of the practice. Medical costs continue to rise and reimbursements continue to decline so it is our policy to effectively manage our patient accounts to minimize cost increases which directly impacts you, the patient.

The purpose of this policy is to provide guidelines and specific instructions related to gathering and maintaining accurate patient information, billing for services rendered and efficient collection activity. Please note these instructions may be modified periodically to ensure we maintain efficient and appropriate protocols related to the business office functions.

It is the patient's/parent's/guardian's responsibility to be familiar with the benefits of your insurance plan, including co-pays, co-insurance and deductibles. We will file your insurance, but please be aware that payment for services is ultimately your responsibility.

For your convenience, we accept cash, check, VISA®, MasterCard®, Discover® and American Express®

Any payment made by check that does not clear your bank account will result in a \$25.00 returned check fee, which will be added to your account and must be paid before the next visit.

Patients with balances

If you have a balance on your account, you will be required to pay the balance when making a new appointment or at check-in. If you need a statement printed or an explanation of charges, we will be happy to accommodate your request. All balances must be paid prior to being evaluated by a Wilmington Eye physician.

Insurance and Patient Identification

Verification of insurance must be done at each patient visit. Insurance verification will include deductible, co-insurance and co-pay. If we cannot verify your insurance, you will be responsible for all charges at the time of service. We will also request a valid driver's license to verify patient identity and address information.

Refraction Fee

Refraction is the process of determining the eye's refractive error, or need for corrective glasses and/or contact lens. Medicare and many other insurance providers DO NOT cover the refraction charge. *Our refraction fee is \$50.00 and will be collected at time of service.*

Co-pays

In accordance with your insurance contract, you must be prepared to pay your co-pay at each visit. We collect co-pays at check-in.

Self-pay

If you do not have insurance, or if you elect to have a non covered procedure, you are responsible for all charges at the time of service. Self pay patients will be asked to pay \$100.00 at check-in. If you need to set up a payment plan, we will coordinate this before you leave the office. Please know that a credit card is required and will be drafted monthly until the balance is satisfied.

Surgery Patients

Any patient who cancels a scheduled, elective surgery without giving more than two (2) weeks notice prior to surgery, or does not show up for surgery, will be charged \$250.00 cancellation fee. Legitimate emergencies will be taken into consideration.

I have read and understand the Wilmington Eye Pa	Chart #: Patient Name:	
Patient Signature	Date	

All professional services rendered are charged to the patient. Necessary forms will be completed to help expedite insurance carrier payments. However, the patient is responsible for all fees, regardless of insurance coverage.

INSURANCE AUTHORIZATION AND ASSIGNMENT

I request that payment of authorized Medicare/other Insurance Company benefits be made either to me or on my behalf to WILMINGTON EYE, P.A. for any services furnished me by that party who accepts assignment/physician. Regulations pertaining to Medicare assignment of benefits apply.

I authorize any holder of medical or other information about me to be released to the Social Security Administration and Health Care Financing Administration or its intermediaries of carriers any information needed for this or a related Medicare claim/other insurance company claim. I permit a copy of this authorization to be used in place of the original, and request payment of medical insurance benefits either to myself or to the party who accepts assignment. I understand it is mandatory to notify the health care provider of any other party who may be responsible for paying for my treatment. (Section: 1128B of the Social Security Act and 31 U.S.C. 3801-3812 provide penalties for withholding this information.)
